# LAMB GROW FIVE ZERO I/O PELLET

*Trusted, Effective, Affordable*

**PELLET CONCENTRATE FOR  
FEEDLOT LAMBS**

## SUMMARY:

Lambgrow FIVE Pellet is a high specification, non medicated buffer and micro-nutrient pellet for inclusion into Lamb feedlot rations. It is also suitable for containment feeding and supplementary feeding programs for all Sheep. Lambgrow FIVE Pellet delivers a range of key nutrients responsible for improved health, growth and feed efficiency performance and is particularly focussed on the management of rumen pH levels.

## CONTAINS:

### Macro Minerals

Calcium	7%
Phosphorus	0.6%
Magnesium	1.6%
Sodium	1.9%
Sulphur	0.7%

### Trace Elements

Manganese
Zinc
Copper
Cobalt
Iodine

Amylase

## DOSE RATE:

2 x 25kg bags per tonne of finished feed from induction through to the end of the finishing phase.

## TIMING:

For addition to Lamb Feedlot diets and also suitable for containment and supplementary feeding programs.

## DIRECTIONS FOR USE:

Lambgrow FIVE Pellet is for addition to feedlot, containment or supplementary grain feeding diets for Lambs and Sheep. It is recommended to feed hay when grain rations are being introduced.

An induction program managing daily incremental increases in grain and distribution of grain to all animals is key to a swift and safe induction program.

## BEST BEFORE:

12 Months from date of Manufacture.

## STORAGE:

Store in a cool dry place, out of direct sunlight.

## MEDICATED/NON MEDICATED:

Non-Medicated

## WITHHOLDING PERIOD:

Nil Withholding.

## PACK SIZES:

25KG bag, 40 x 25kg bags per pallet. Bulka bags.

- ✓ HIGH SPECIFICATION
