

DIAMOND V XPC

ULTRA

PREBIOTIC SUPPLEMENT
FOR LIVESTOCK

Diamond V XPC is a natural immune health product used in all classes of livestock, poultry, equine, and pet diets to support optimal health and performance.

Diamond V-XPC product line works naturally with the biology of the animal to help maintain immune strength, support digestive tissue integrity, and promote a healthy microbial balance.

Original XPC Ultra is 8x more concentrated than Original XP and is the most concentrate, lowest inclusion Diamond V Original Product.

Contains

Saccharomyces cerevisiae yeast [dried yeast metabolites] and the media on which it was grown, consisting of roughage products processed grain by products, and cane molasses.

HORSES	
FOALS	1.75 G/HD/DAY
ADULT HORSES	7 G/HD/DAY
DRAFT HORSES	14 G/HD/DAY

Feedsafe Accredited

Compass feeds is a Feedsafe accredited stockfeed manufacturing facility

Features

Replicated university research shows that use of Diamond V original line metabolites can produce

- Increased dry matter intake, microbial protein, fibre digestion and VFA yield in ruminants leading to greater milk yield, weight gain and improved feed conversion efficiency
- Improve weight gain, feed conversion and egg production in poultry
- Assists with maintaining healthy animals across species, especially during periods of stress associated with normal husbandry practices.

PACK SIZES: 1,2,4 & 25KG

Best before: 12 months from manufacture date

Nil withholding First Aid: in case of contact with eyes, wash with plenty of water, if inhaled and symptoms of irritation or sensitization occur, remove from exposure and call a doctor.

Store in a cool dry place, out of direct sunlight.
Shelf life under these conditions is 24 months
